

Technical Data Sheet for 19143 Upholstery Foam Cleaner

Industrial Maintenance Aerosols

Upholstery Foam Cleaner

Expert treatment to restore most fabrics

A solvent free aqueous based cleaner formulated to remove grease and grime from fabrics, including upholstery, carpets, rugs and other porous fabrics. The foaming action ensures penetration and even distribution of the spray, making the cleaning of vertical surfaces easy.

Benefits: Effectively removes grease and grime
Good foam stability
Optical whitener improves colour brightener
Foaming action reduces wetting

Technical Data:

Appearance: Clear blue liquid

Odour: Soapy

Contents: Aqueous solution of a complex surfactant blend including phosphate ester, alcohol ethoxylates, alkyl ether and olefin sulphates, coconut based foam booster, sodium benzoate with synthetic fragrance and sodium hydroxide, optical brightener and blue, water soluble dye with butane/propane propellant.

Storage: Below 50°C

Flash Point: <0°C

Temperature range: For use at ambient temperatures

Relative Density: 1.115

Directions for Use:

Shake can well before use. Spray from a distance of 20-25cm, allowing foam to develop before removing with a damp cloth or sponge, working from the outside towards the centre. Check for colour fastness on light or pastel fabrics in an inconspicuous area first
